

CURRICULUM VITAE

HANS HEIJNEN

Personal

Name: Hans Heijnen
Nationality: Dutch
E-mail: hans.heijnen@enhansment.nl
Mobile: +31.6.467 10 218

Summary of work experience

Hans Heijnen is an experienced manager change & IT with in-depth experience in financial services. He has managed several projects and programs and has led as an interim manager many agile change teams in dynamic environments. He makes the difference as a change manager by bridging the gap between business and IT. With his openness, involvement and humour he creates a safe environment where his teams and colleagues can flourish. Hans has more than 25 years of working experience. His ambition is to use this experience and his leadership skills in the near future as a senior manager or director IT & change or CIO.

- 2012 - now: Enhansment (self employed) - change manager/ IT manager
Assignments for a/o Stater, ABN AMRO, Nationale Hypotheekgarantie (NHG) and cegeka-dsa
Currently through Enhansment working as strategic policy advisor for NHG (full time)
- 2005 - 2012: NIBC – Manager Project Delivery
- 2002 - 2005: Tam Tam (web agency) – Operations manager (Project management / People management)
- 2000 - 2002: Lost Boys Business Solutions – Project and account manager
- 1998 - 2000: Unilever - Project manager
- 1994 - 1998: Akzo Nobel Chemical – Process engineer and project manager
- 1992 - 1993: Airmobile Brigade – Intelligence officer

Competencies

During his career, Hans has developed the following competencies

- People management
 - Secure base leadership / servant leadership
 - Agile coaching
- IT and change management
 - IT management
 - Business-IT alignment
 - Project/programme/portfolio management
- Strategy development

Industry expertise

Hans has particularly gained experience within the following domains

- Retail Markets (Mortgages, securitisations, online savings, payments)
- Operations
- IT
 - (Agile) Software development
 - Migraties
 - Application management

Relevant work experience

2012 – now

Enhansment Consultancy BV – owner / change manager

Within Enhansment, Hans has worked for various clients in the field of IT and change in business services.

As an interim manager he has worked for NIBC, Stater and cegeka-dsa.

- He fulfilled the role of interim manager IT Retail (35 FTE) for NIBC in 2022. The most important change has been the shift in teams from application teams (core banking, Salesforce, data) to product teams (Mortgages, Savings, Buy to Let), which has improved business-IT alignment considerably.
- From the end of 2019, Hans was IT & change manager at Stater for two years. He was end responsible for the Digitization domain (13 teams, 130 FTE, € 10-15M in customer projects per year) and for the DIGI program (€ 5-10M per year). In IT terms, he was responsible for development and management of all portals and API's, In addition, he was actively involved in developing a new Target Operating Model for Stater IT, a strategy that focuses more on product vision and agile working.
- In 2019, Hans was responsible for the project managers (10 FTE) and the management of the project portfolio (€ 5M per year) for cegeka-dsa (ERP software for housing corporations) as an interim manager. Participated on behalf of cegeka-dsa in steering groups in various ERP implementations.

As a change manager, Hans has worked for CMIS group, ABN AMRO and cegeka-dsa, among others.

- Hans led the Hyppo program for the CMIS group (mortgage servicing and advice). In a short time a new integrated servicing street was delivered (Davinci Close), as well as a new data warehouse (Power BI) and a completely new network architecture (Azure, Office 365).
- In 2015/2016 Hans successfully completed two critical issues for ABN AMRO as program manager. In the penalty interest task force, more than 10,000 customers were compensated in a short period of time for incorrectly calculated penalty interest. In the Interest change ('rentemiddelen') program, the interest change process online and STP has been realized for all ABN AMRO labels. In 2012, as a project manager, he realized the realization of a new front office application for ABN AMRO mortgage advisers.
- Hans led the SEPA program for cegeka-dsa in 2013/2014, in which more than 40 housing associations were made SEPA compliant within 6 months.

Hans also worked as a product manager at the National Mortgage Guarantee (NHG) between 2016 and 2018 and currently he works for NHG as a strategic policy advisor

- At NHG, he was responsible, among other things, for the development of the sustainability deposit (financing for energy-saving measures) and mortgage solutions for specific target groups (including seniors, temporary workers). In doing so, he has dealt with a diverse stakeholder field consisting of NHG customers, banks, the Ministry of the Interior, AFM and DNB. In addition, he has played an active role within NHG in the realization of a more agile organization.
- As a strategic policy advisor his main focus is improving financing possibilities for sustainability measurements.

2005 –2012

NIBC – Manager Project Delivery

Initially, Hans was responsible for the management of Retail projects. From 2010, he was responsible for NIBC project portfolio and for team of internal and external project managers (2010-2012)
